Journal papers

10. A Raman scattering study of the pressure induced phase transition in s-triazine. MT Dove and PJS Ewen. Journal of Chemical Physics 82, 2026–2032, 1985

46. The determination of rigid unit modes as potential soft modes for displacive phase transitions in framework crystal structures. AP Giddy, MT Dove, GS Pawley and V Heine. *Acta Crystallographica A49*, 697–703, 1993

67. Lattice simulation studies of the ferroelastic phase transitions in (Na,K)AlSi$_3$O$_8$ and (Sr,Ca)Al$_2$Si$_2$O$_8$ feldspar solid solutions. MT Dove and SAT Redfern. *American Mineralogist* **82**, 8–15, 1997

---

4

94. In situ neutron diffraction study of non-convergent ordering in the spinel solid solution (Fe$_3$O$_4$)$_{1-x}$(MgAl$_2$O$_4$)$_x$: kinetics and equilibrium ordering. RJ Harrison, MT Dove, KS Knight and A Putnis. *American Mineralogist* **84**, 555–563, 1999

**Manuscripts in press**

**Books**

**Reviewed and published conference papers**

311. Metadata management and grid computing within the eMinerals project. RP Tyer, PA Couch, TV Mortimer-Jones, K Kleese van Dam, IT Todorov, RP Bruin, TOH White, AM Walker, KF Austen and

Chapters in books

315. Spontaneous strain in molecular crystals, with special consideration of the orientational order-disorder phase transition in sulphur hexafluoride. MT Dove. in Phase transitions in ferroelastic and co-elastic crystals, EKH Salje (Cambridge University Press), 1990, pp 310–325

316. Spontaneous strain in molecular crystals, with special consideration of the orientational order-disorder phase transition in sulphur hexafluoride. MT Dove. in Phase transitions in ferroelastic and co-elastic crystals, EKH Salje (Cambridge University Press), 1990, pp 310–325

318. Short-range disorder and long-range order: implications of the ‘Rigid Unit Mode’ model. MT Dove, V Heine, KD Hammonds, M Gambhir and AKA Pryde. in Local structure from diffraction, ed. MF Thorpe and S Billinge (Plenum), pp 253–272, 1998

320. Introduction to the theory of lattice dynamics. MT Dove. in Microscopic properties and processes in minerals (ed. CRA Catlow and K Wright, Riedel, Amsterdam), pp 281–297, 1999

322. Introduction to the theory of displacive phase transitions. MT Dove. in Microscopic properties and processes in minerals (ed. CRA Catlow and K Wright, Riedel, Amsterdam), pp 427–450, 1999

323. Order/disorder phenomena in minerals: ordering phase transitions and solid solutions. MT Dove. in Microscopic properties and processes in minerals (ed. CRA Catlow and K Wright, Riedel, Amsterdam), pp 451–475, 1999

An introduction to atomistic simulation methods. MT Dove. In *Seminarios de la Sociedad Española de Mineralogía volume 4* (*Computer Methods in Mineralogy and Geochemistry*), pp 7–37, 2008

Introduction to the theory of lattice dynamics. MT Dove. *JDN*, 12, 123–159, 2011

**Articles published in reports and bulletins**

Orientational disorder in non-ionic crystals. MT Dove. *ODIC Newsletter* 6, (2) 6–13, 1987

Low-frequency modes in amorphous and crystalline frameworks. IP Swainson and MT Dove. *ODIS Newsletter* 9, (4) 17–21, 1994
